

Medicaid (KanCare) Adult Dental Benefits Frequently Asked Questions for Consumers

Who is eligible for the adult dental benefit?

All people over age 21 who are eligible for Medicaid have access to new dental benefits. Adults who are eligible for Medicaid include people with disabilities, older adults, and pregnant people.

When did adult dental benefits go into effect?

- Coverage for fillings, crowns, and gum disease care for people over age 21 went into effect on July 1, 2022.
- Coverage for dentures went into effect on July 1, 2023.
- Coverage for dental exams, x-rays, and cleanings for all adults without an annual limit on July 1, 2024.

What services are covered for people 18-20?

The services covered under Early and Periodic Screening, Diagnostic and Treatment ([EPSDT](#)) are in effect for people up to age 21, and then the adult benefits kick in.

Does my choice in MCO determine what dental services I can receive?

No. As of July 1, 2024, Medicaid covers dental exams, x-rays, cleanings, fillings, crowns, gum disease treatment, and dentures without the previous \$500 limit.

Are dentures covered?

Yes! Dentures, partials, and adjustments are covered. Adults must meet some medically necessary criteria to qualify, including having X-rays. Dentures can be replaced every five years, and people who had dentures before being covered by Medicaid can have them replaced if the dentures are at least five years old.

Is there a maximum annual benefit for adults?

There is no maximum for dental exams, x-rays, cleanings, fillings, crowns, and gum disease care.

Is transportation available for dental appointments?

Medicaid covers “non-emergency medical transportation” for appointments for Medicaid-covered services, including fillings, crowns, periodontal care, and dentures. Contact the managed care organization for help finding a transportation provider for scheduled dental appointments.
